

# create a survey with google docs

## Activity 6

---

### Step 1: Register for an Account

Login with your Google account or create a Google account at <http://docs.google.com>.

### Step 2: Brainstorm

How can Google Docs be used for collecting data, for formative assessment during a lesson, or summative assessment during a unit? Work with the group to create a list of ways that a survey can be used in the math classroom.

### Step 3: Create an Assessment

Use Google Docs to create an assessment (formative or summative). Guides to using Google Docs can be found at <http://timcushman.com/presentations.html> under the heading of "Google Docs." Steps for creating a survey (Google calls a survey a "form") can be found at <http://docs.google.com/support/bin/answer.py?hl=en&answer=87809>.

### Step 4: Data Collection

Use Google Docs to create an assessment (formative or summative). Guides to using Google Docs can be found at <http://timcushman.com/presentations.html> under the heading of "Google Docs."
